The St David Home and School Association values what a catholic education provides our children. Our children are taught the values of love, respect and compassion on a daily basis through classroom instruction and everyday experiences. They learn to accept the differences of others and love them just the same. Our children are involved in many community services projects through school and parish organizations throughout the year. It is an experience they look forward to and enjoy. Others learn through the compassion and love our children have shown them. The proceeds from this 5K run/walk will go to benefit our school Learning Support Program and St. Vincent De Paul Society Client Assistance Program. These programs assist those in our community and school with special needs be it physical, emotional, academic, or financial, continuing to show compassion and love for others.
