

Good News for parents. The new assets to our school:

- **Thirty new computers, generosity of the Connelly Foundation.**
- **A Learning Support Program in grades 1 to 4 which will be in the lower school.**
- **Windows have been replaced in the upper school.**
- **We have made empty classroom into multimedia rooms each with a projector and a smartboard.**

We also welcome Mr. Matthew Grill to sixth grade and Mrs. Susan Scholer as the Learning Support Teacher. The aides in the Learning Support will be Mrs. Kristine Sulkowski and Mrs. Renee McHugh.

Hopefully the Learning Support will be a way of helping children with extra academic needs to remain in our school.

Please pray that all of our endeavors work well and that God blesses our efforts.
