Please be assured that we have done our best to keep tuition at St. David School as affordable as possible. If parents had to pay the full cost of a child's education at St. David School the tuition for each and every child would have to be over \$4000. Because of the commitment of the entire parish community to the importance of Catholic education, the increase in tuition for the next year has been kept to a minimum. Your continued support of St. David Parish through the regular use of the weekly offering envelopes is important in keeping St. David School affordable for all.
